I began to afflicted in 1841 with Catarrh, and Albee Grand the difficulty increased rapidly until December, Amehine George 1850, producing in the course of that period Asthma. The first systems of disease was an extreme opressiveness of the head, then followed a difficulty on the lungs, caused by the falling of mucus, of which there was a copious flow from the glands in the head, producing tightness, violent cough, pain in the side, and innumerable strendant evils. The accumulation of muous on the lungs was such, that I could not breaths when in a horozontal or reclining posture; and mand nights during the last reclining posture; and man's nights during the less two years, I enjoyed no sleep, except what I could get realking my room. My breathing during the day was often loud and wheesing, like an over driven horse, and indescribebly distressing.

During all this time I could get no permanent relief. A cousse of treatment from my physician, would be a relief only for the time that he kept me Brown Jeremiah

Last December, my attention was brought to Brunthaver Elizabeth the consideration of the Oxygenated Bitters, by the Hon. Myron Lawrence, who at that lime was rejeicing in the emancipation of his own lungs, from a twenty years bondage, by the use of your medicide. I purchased four bottles of your bitters.

I have not yet used the whole of the third bottle, and I believe I am curci.

An excellent quality of the medicine, is, besides

its remedial virtues, that it is rather desirable to take, being at all times as agreeable as a glass of lemonade. I meet persons almost daily, to whom I recommend it, having faith that they also can be PREDERICK T. WALLACE.
